

Topical leaflets proposal

Ian A

To enable rs21 members to engage politically at meetings, demonstrations, pickets, and with people we have political relationships with, rs21 needs to produce topical leaflets.

The process of collectively producing them, and seeing how they are received, will encourage collective discussions which reach at least provisional conclusions.

To facilitate this the SG will invite comrades to join a rota with one member leading on leaflet production each week. The member will produce a first draft and invite comments via our Facebook group, then make edits in response to the comments. Normally the member responsible makes the final edit, unless two or more SG members object to it, in which case the SG will take over responsibility for finalising that week's leaflet.

[Note: rs21's leaflets can be found [here](#).]
