Subject: Statement of the Working Class Movement Library

**Statement of the Working Class Movement Library in relation to the WCML September newsletter, distributed on 1 September 2023.**

The newsletter contained reference to a publication entitled 'Fighting Transphobia: A Practical Guide' produced by rs21, by way of including it within the section entitled 'The Working Class Movement Library Recommends'. The Trustees wish to make clear that this publication was included in the newsletter as a 'recommendation' in error and the rs21 guide was removed from the newsletter which was re-distributed as soon as we became aware of the situation. Our position is that we neither endorse nor wish to promote this publication and sincerely regret that this situation has occurred. Further we apologise for any confusion, offence or upset that may have been caused. The WCML remains committed to its mission statement and purpose. We are an inclusive organisation that welcomes discussion and does not tolerate discrimination in any form.

Yours in solidarity,

The Working Class Movement Library
